

CHINA NEW ENERGY TRADE MISSION 2012

BEIJING – TIANJIN – SHANGHAI

04/10/2012 (Tuesday) – 04/17/2012(Wednesday)

Organizers

(China)

- Chinese New Energy Chamber of Commerce (U.S.)
- Center for the New Energy Economy
 - Poetica LLC
 - Planet-Profit Report Media

Goals

- To understand the current state and future trend of China's clean tech development from various aspect, such as policies, strategies, financing, technologies, and operational environment;
- To communicate clean tech's opportunities, challenges, and experiences;
 - To explore the market development of clean tech on both sides;
- To discuss how to establish win-win partnership and combine the advantages of both sides to overcome current challenges and promote clean tech in the two largest economies and the whole world;
 - To create cooperation opportunities for clean tech companies from both sides, including investment, R&D, manufacturing, and solution implementations.

Potential Partner Matching Process

The following process is to effectively match trade mission members with potential partners for market entry, R&D, and/or financing:

Step	Date / Deadline	Activity
NDA	02/15	Trade mission members submit NDA draft to organizer.
	02/24	NDA's are executed by China New Energy Chamber of Commerce
Business Info	03/07	Trade mission members submit investor deck and/or business plan and other required documents
Partner Selection	03/23	China New Energy Chamber of Commerce introduced two or more potential partners selected for the trade mission member.
Additional Info	03/30	Additional NDA's executed if necessary. Additional info is exchanged.
Partner Meeting	04/13 Afternoon	Meeting the selected potential partners at the Sixth China New Energy International Forum's professional sub-forums.
	04/14 Morning	
Follow-up		Follow-up communications will be assisted by China New Energy Chamber of Commerce and Poetica LLC.
